Federal Order No. 47

Issued for information of Producers  
Who Are Not Members of Cooperative Associations

U. S. DEPT. OF AGRICULTURE

Vol. VIII No. 11

NATIONAL AGENT

CART

November 1964

OCTOBER UNIFORM PRICE \$4.67

NOV 23 1964

Dairy farms who delivered Grade "A" milk to handlers subject to the Fort Wayne milk order in October 1964, will receive a minimum uniform price of \$4.67 per hundredweight for milk having 3.5% butterfat differential of 7.6 cents for each one tenth of one percent that individual tests vary above or below the 3.5% standard will be used. This minimum price is subject to authorized hauling charges. The computation of the minimum blend price is shown on page 5 and the class prices on page 4.

The \$4.67 price for October 1964, is 8 cents above the September 1964 price, and 20 cents above the October 1963 price. This \$4.67 blend price includes about 40 cents derived from funds paid into the pool by handlers, plus earned interest, under the "Louisville Plan" in April, May and June of this year.

PRODUCER RECEIPTS AND UTILIZATION

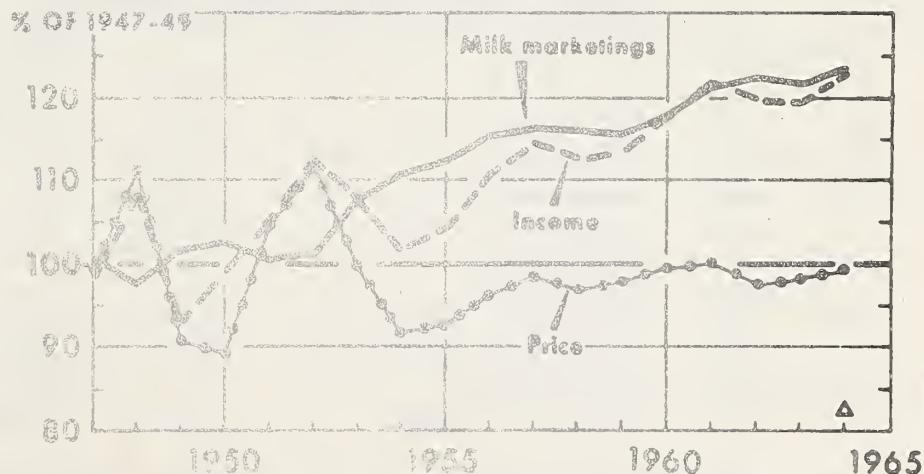

Approved producers shipped 20,618,030 pounds of milk to the Fort Wayne market during October 1964, of which 17,958,109 pounds or 87.0% was utilized in Class I by 15 pool handlers. Production was up 3.2% from September 1964. Class I utilization of producer milk was up 9.8% from September 1964.

NOVEMBER CLASS I PRICE \$4.47

\$1.20 was added to the October basic formula price of \$3.27 (Wisconsin-Minnesota Series) to establish the Fort Wayne Class I price for November. This price of \$4.47 is three cents above the October Class I price.

## MILK MARKETINGS, PRICE, AND INCOME

Prices farmers receive for milk and milkfat have trended slowly upward in the last 3 years. In contrast to a net decline for crops as a group and rather wide fluctuations for other livestock products. Marketings of milk and cream this year are running about 1 1/2 billion pounds, milk equivalent, above 1963, and cash receipts from producer marketings are expected to approach \$5 billion, a record high, about 2 1/2 percent above 1963. During the past decade market prices have been closely in line with Government support prices, because supplies have exceeded demand from commercial outlets.
